---

SUMMARY

BSc Computer Science graduate (NUST, Systems Administration) who contributed to a nationwide PEPFAR rollout of 250+ HP and Supermicro servers and Fortinet firewalls across Namibian health facilities. Hands-on with Windows Server, Active Directory, Linux and Cisco networking, and experienced in writing SOPs and supporting end users. Seeking an entry-level IT Systems Administrator role in Windhoek.

TECHNICAL SKILLS

Systems & Servers: Windows Server, Active Directory (OUs, Group Policy, delegated administration, NTFS and share permissions), Linux (Ubuntu), HP and Supermicro server , BIOS/BMC configuration, Firmware upgrades

Networking & Security: Cisco IOS, VLANs and inter-VLAN routing, Static routing, DHCP and DNS, Fortinet firewalls, WAP Config, IP addressing and network troubleshooting

Virtualization & Monitoring: VMware VirtualBox, Netdata (real-time monitoring and alerting), Virtual machine management

Support & Documentation: IT helpdesk and end-user support, Windows installation and configuration, Hardware and software troubleshooting, technical documentation, SOPs, IT inventory management

---

EXPERIENCE

System Administrator / HIS Officer, I-TECH Namibia | Windhoek 19 Aug 2025 to 17 Oct 2025.

- Part of a team that deployed 250+ HP and Supermicro servers and Fortinet firewalls at health facilities across Namibia under the PEPFAR programme.
- Performed firmware upgrades and BIOS/BMC configuration on servers, including hardware scaling.
- Wrote SOPs for system management, used by staff at health facilities.

IT Intern, I-TECH Namibia, seconded to the Ministry of Health and Social Services (MOHSS) Windhoek | 22 Oct 2025 to 14 Nov 2025.

- Configured wireless access points for healthcare facilities.
- Maintained technical documentation and the IT inventory of [WAP] devices.

Self-directed projects and study -since Nov 2025

- Built a simulated enterprise helpdesk console covering ticketing, Active Directory, printer management and Cisco-style network CLIs.
- Built a Windows Server Active Directory lab and a Netdata monitoring setup.

PROJECTS

- **Enterprise Helpdesk Console | HTML**, built with AI assistance (Claude)
  Browser-based IT helpdesk simulator with ticketing, Active Directory, remote sessions, printers, and Windows and Cisco-style command lines.
- **Active Directory Deployment | Windows Server**
  Built a domain with OUs, Group Policy, delegated administration, and NTFS and share permissions.
- **Netdata Monitoring | Linux**
  Set up real-time VM monitoring with custom dashboards and live alerts.

EDUCATION

- Bachelor of Computer Science (NQF 7), Systems Administration
  Namibia University of Science and Technology (NUST) | [09 October 2026]

ADDITIONAL

- **Certifications:** Cisco Networking Academy: Network Support and Security, Networking Basics, Computer Hardware Basics | [2026]
- **Design:** Canva (logos, posters, social media graphics)
- **Languages: [**English - Oshindonga]
